Featured Jets:

(Some jets not pictured)

Directional Hurricane

State of the art hydrotherapy performance! These jets feature total directional control and adjustable dial for various water flow levels.

Massage Hurricane

A 14 jet system that provides superior performance. Pamper yourself with a powerful, multi-level master massage.

3" Vari Swirl Hurricane

A signal 3/4" nozzle jet is adjustable to an angle of 26° for a large, 360° degree massage area.

2" Directional Posi-Flow

Allows the user to adjust the narrow stream of water to position it on specific muscles or areas of the body.

DURA-BOND™

This three-layer strengthening process combines the beauty of Lucite Plus Acrylic™ with a layer of ABS shell for strength and integrity. Then a double strengthening material is applied. This high density material has all the strengthening properties of fiberglass without the environmental concerns.

ENERGY SAVER SYSTEM™

Heat is generated by the spa's power equipment inside the cabinet. This heated air is captured and returned to the spa's water. This continually helps maintain the water temperature without running the heater as often. The heat recovery system saves you money by reducing electrical costs.

1. Acrylic Plus™
2. ABS
3. Dura-Bond™
4. Dura-Frame with Synthetic Reversible Panels
5. Polystyrene Insulation
6. Thermal Air Barrier
7. Moisture Resistant Polyethylene Flooring

MAINTENANCE FREE DURA FRAME™ CABINET

Select model spas feature our redwood color, Maintenance Free Dura Frame™ cabinets. These powder coated, galvanized steel frame cabinets with redwood panels are known for their rich, beautiful appearance and long-lasting durability. Access panel makes service easy.

SOFT TOUCH CONTROLS™

State-of-the-art digital electronic control with LCD temperature and filtration readout. All functions are conveniently located at your fingertips.
